

# STANDING UNITED. LEADING THE WAY.

**At United Way, we are dedicated to one unshakable principle—no one should have to live in poverty.** Through immediate relief initiatives focused on violence prevention, utility assistance, and access to internet, to long-term solutions such as benefit access, record expungement, and match savings programs, we can all be part of the plan to erase the poverty line.

When we stand together,  
poverty doesn't stand a chance.
